

## ORDER FORM

### ***Christmas Carol Festival Guidebook: A New Way to Reach Out to Inactive Catholics!***

This process is designed to highlight the Christmas story, especially as it is told through carols, and in January through give the coming year to God through calendars, cell phones and personal media. The goal is to help unchurched, inactive or marginal Catholics connect or re-connect with our common Christian heritage, with the Church, and with God in the weeks before Christmas. The *Festival* event extends new invitations to faith through Christmas carols, witnesses, prayer, sharing, Gospel readings and the simplicity of Advent symbols. The process involves three important phases: Preparation (July to November), Proclamation (the *Festival* event) and Preservation (Jesus in January).

**Training CD** includes three audio presentations, videos (computer viewable), songs sheets and handouts for events and training.

*Written by Therese and John Boucher, published through [www.christkey.com](http://www.christkey.com), Princeton, NJ*
